DIODE

ABOUT

DIODE is a Puerторican Massachusetts-based Drum & Bass producer, neurofunk artist and DJ. His sound combines aggressive bass design, powerful drums, cinematic atmosphere and polished mixing – music built to feel physical while retaining technical precision and emotional weight.

His catalog includes releases on respected labels including Abducted, Stonx, Warlock Audio, Close 2 Death, Genome Records, Dirtbox Recordings and VTO Records. Beyond his own productions, **DIODE** connects music, visual identity and education through graphic design, creative direction and LET ME DNB, his live production platform and producer community.
